Chromebook Responsible Use Agreement for Students

I will demonstrate digital citizenship by taking care of the Chromebook/Laptop issued to my student by Omaha Street School (OSS). I understand the cost to replace the device is approximately **\$180.00**. Any broken/lost device costs will be added to my student's tuition for the 2020-2021 school year.

My student will...

- use the Chromebook to access school assigned content and complete schoolwork in accordance with this agreement.
- charge the device only with the power cord provided with the device
- understand that work cannot be saved directly to the device. Data saved to the device will be lost when the machine is logged or turned off. Please save assignments and/or data to portable storage devices.
- promptly report any damage to the device and/or problems with the operation of the device to OSS
- report loss or theft within 2 hours to school officials and authorities (police)
- obtain permission from individuals prior to using the device to record them visually or audibly
- keep the device free of any decorative writing, drawing, stickers, paint, tape, and decals
- turn over the device to staff upon request
- keep my LPS username and password private from other students

My student will not...

- throw, drop, or damage the OSS Chromebook in any way
- give or lend the device to another student, friend, or family member for his/her use
- use anyone else's username and password at any time.
- allow anyone else to use my username and password at any time.
- allow anyone else to use my device while it is signed into my OSS account.
- attempt to alter the configuration or user permissions of the device
- remove or copy any of the software applications or management/security utilities
- leave the device unsupervised in a vehicle
- distribute, exchange, upload, attach, or archive any type of audio/video recordings unless the content has been reviewed and approved by a teacher who directs where the content will be stored
- download copyrighted or proprietary data or material
- order replacement parts for or have anyone other than OSS personnel fix the device.

NO EXPECTATION OF PRIVACY

Because OSS owns the device, students have no expectation of confidentiality or privacy with respect to the device. OSS may, without prior notice or consent, log into, view, monitor, and record use of the device and any corresponding technology tools at any time for any reason related to the operations of OSS.

I agree to return devices in the same condition at the end of my loan period as it was upon receiving the device. **Devices are due upon Omaha Street School's return to in-person learning.**
